* When used with Comwave Home Phone service

step 1   Shut down your computer.

step 2   Connect the Comwave Internet Modem using a standard cable wire (not supplied) to the Cable Wall Jack.

step 3   Connect the supplied Ethernet cable from your Internet Modem to the WAN port on your Router.

step 4   (For Home Phone) Connect the supplied Ethernet cable from the LAN port of your Router to the WAN port of the Home Phone Adapter.

step 5   Connect an Ethernet cable from your computer to any available LAN port on your Router.

step 6   Connect the Comwave Internet Modem to the power bar and wait until the ONLINE light turns on and wait 5 minutes.

step 7   Connect the Router to the power bar and wait 2 minutes.

step 8   (For Home Phone) Connect a telephone to the PHONE 1 port on the Home Phone Adapter.
Then connect power and wait 5 minutes for dial tone.
DO NOT DISCONNECT POWER as it may damage the Home Phone Adapter.

step 9   Start your computer.
